## Facebook Product Assets and Identity Guide

June 2014

**Facebook's mission is to make the world more open and connected. People use Facebook to stay connected with friends and family, to discover what's going on in the world, and to share and express what matters to them.**

At Facebook, we build tools that help people to connect with one another and tools that make sharing what they want to share—ideas, stories, and photos—much easier.

By doing this, we are extending people's capacity to build and maintain relationships.

Welcome.

Use these assets and identity guidelines to accurately communicate the Facebook brand.

## What is this guide?

This guide is an overview of product and brand assets for Facebook. It includes copy blocks, image assets and logo guidelines for use in your marketing materials.

## What are image assets?

This guide displays image assets available for download at the [Brand Resource Center](#). The downloadable images are high-resolution Facebook product screen captures that are built to use for online, print/packaging, as well as film/broadcast promotional activities. These captures are at their best when combined with a relevant hardware device or operating system. Please use these product screens as shown or you can customize by replacing photos and modifying or localizing copy. If your plan is to customize a product screenshot, please be sure that the Facebook user interface (UI) shown is visible and not altered in any way from how it's displayed in real life. The use of these screenshots must adhere to the following guidelines and those found in the [Brand Resource Center](#). Please remember that Facebook needs to approve any image assets used in film and broadcast. Everything you need to get started can be found in the [Brand Resource Center](#).

## Why is this guide important?

Over 1 billion users around the globe actively use Facebook to communicate and share information with the people they care about. Our goal is to make sure Facebook is a brand people can trust. This guide is designed to help you communicate Facebook's brand in a way that meets people's expectations in the most effective way possible.

## **Facebook Identity Guidelines**

The “f” logo is one of Facebook’s most important visual and identity assets. The next pages show you how to use the the “f” logo, the Like Button and the Thumbs Up logo properly.

# Proportions and spacing of the “f” Logo

|                          |           |
|--------------------------|-----------|
| News feed assets         | 7         |
| Timeline assets          | 14        |
| Photos assets            | 21        |
| Messages assets          | 34        |
| Friend Request assets    | 41        |
| Notifications assets     | 48        |
| Pages assets             | 55        |
| Messenger assets         | 62        |
| <b>Facebook Identity</b> | <b>67</b> |

## Using the “f” Logo

The primary use of the “f” logo is to promote your organization’s presence on Facebook. For example, when you say, “Find us on Facebook” and link to your Facebook page, it’s appropriate to use the “f” logo. To see examples of proper use of our “f” logo, as well as more detailed “f” logo guidelines, please visit [www.facebookbrand.com](http://www.facebookbrand.com). Additionally, use of this logo in broadcast requires submission of a brand permission request form which you can obtain from: [www.facebookbrand.com/request](http://www.facebookbrand.com/request).

## Maintain Proportions

The proportions and spacing of the “f” logo should never be altered for any reason. Hold the “Shift” key in most software programs to maintain the proportions while scaling up or down.

## Preserve Clear Space

To preserve the integrity of the “f” logo, always maintain a minimum clear space around the logo. This clear space insulates our “f” logo from distracting visual elements, such as other logos, copy, illustrations or photography. Always maintain this minimum clear space, even when proportionally scaling the logo.

## Incorrect Use

To ensure accurate and consistent use, never alter, rotate, embellish or attempt to recreate the “f” logo. Don’t alter the rounded box shape or alter the proportions, or add any embellishments.

## Do’s and Don’ts

- DO** Only use the “f” logo to refer to:
- Your presence on Facebook, such as your page, timeline, group, app or event.
  - Your implementation of Facebook on your website.
  - Your product’s integration with Facebook such as “For use with Facebook”.
  - Content that originates from the Facebook service.

- DO** Include a clear call to action that communicates your use of Facebook (for example, ‘Like us on Facebook’ or ‘Install our app on Facebook’) unless the “f” logo is side-by-side with other social media logos.

- DO** Request permission before you use the “f” logo in broadcast or film.
- Visit [www.facebookbrand.com](http://www.facebookbrand.com) for information about what to include with your request. You must be logged into Facebook to access the brand permission request form.

- DON’T** Modify the “f” logo in any way, such as changing design or color. If you are unable to use the correct color due to technical limitations, you may revert to black and white.

# Proportions and spacing of the Like Button

|                          |           |
|--------------------------|-----------|
| News feed assets         | 7         |
| Timeline assets          | 14        |
| Photos assets            | 21        |
| Messages assets          | 34        |

| Messenger assets         | 62        |
| <b>Facebook Identity</b> | <b>67</b> |

## Using the Like Button

## Maintain Proportions

The proportions and spacing of the Like Button should never be altered for any reason. Hold the “Shift” key in most software programs to maintain the proportions while scaling up or down.

## Preserve Clear Space

To preserve the integrity of the Like Button, always maintain a minimum clear space around the logo. This clear space insulates our Like Button from distracting visual elements, such as other logos, copy, illustrations or photography. Always maintain this minimum clear space, even when proportionally scaling the logo. For more detailed Like button guidelines please visit [www.facebookbrand.com](http://www.facebookbrand.com).

## Incorrect Use

To ensure accurate and consistent use, never alter, rotate, embellish or attempt to recreate the Like Button. Don't alter the rounded box shape or alter the proportions, or add any embellishments.

## Do's and Don'ts

**DO** Use a clear call to action (for example: 'Like us on Facebook', 'Add your app on Facebook', 'For use with Facebook') to refer to your Facebook page, website or app where the Like Button plugin has been implemented.

**DO** Request permission before you use the Like Button in broadcast or film. Visit [www.facebookbrand.com](http://www.facebookbrand.com) for information about what to include with your request. You must be logged into Facebook to access the brand permission request form.

**DON'T** Modify the Like Button logo in any way, such as by changing the design or color.

**DON'T** Substitute the Like Button logo for the word 'Like'.

# Proportions and spacing of the Thumbs Up Logo

|                          |           |
|--------------------------|-----------|
| News feed assets         | 7         |

| Messenger assets         | 62        |
| <b>Facebook Identity</b> | <b>67</b> |

## Using the Thumbs Up logo

Only use the thumbs up logo in conjunction with the “f” logo and a clear call to action (for example: ‘Like us on Facebook’, ‘Install our app on Facebook’, ‘For use with Facebook’) to reference your Facebook presence. Any use of this logo in broadcast requires submission of a brand permission request form. To obtain this form, and to see examples of proper use of our Thumbs Up logo, please visit [www.facebookbrand.com](http://www.facebookbrand.com). For more detailed Thumbs up logo guidelines please visit [www.facebookbrand.com](http://www.facebookbrand.com).

## Preserve Clear Space

To preserve the integrity of the Thumbs Up logo, always maintain a minimum clear space around the logo. This clear space insulates our Thumbs Up logo from distracting visual elements, such as other logos, copy, illustrations or photography. Always maintain this minimum clear space, even when proportionally scaling the logo.

## Maintain Proportions

The proportions and spacing of the thumbs up should never be altered for any reason. Hold the “shift” key in most software programs to maintain the proportions while scaling up or down.

## Incorrect Use

To ensure accurate and consistent use, never alter, rotate, embellish or attempt to recreate the Thumbs Up logo.

## Do's and Don'ts

**DO** Only use the thumbs up logo in conjunction with the “f” logo and a clear call to action (for example: ‘Like us on Facebook’, ‘Install our app on Facebook’, ‘For use with Facebook’) to reference your Facebook presence.

**DO** Request permission before you use the Thumbs Up in broadcast or film. Visit [www.facebookbrand.com](http://www.facebookbrand.com) for information about what to include with your request. You must be logged into Facebook to access the brand permission request form.

**DON'T** Modify the thumbs-up logo in any way, such as by changing the design or color.
